SUMMARY

Front end focused web developer looking outside of the box for the next trend to dominate web design. Working towards my coding bootcamp certificate through the University of Washington Continuum College, honing my skills in HTML, CSS and JavaScript to provide dynamic, interactive and responsive web design services. Technical skills combined with my knack for collaboration and teamwork make me a valuable asset to any front end development team. This is demonstrated in a series of projects in which I provide a unique UX to differentiate myself from the competition.

TECHNICAL SKILLS

- **HTML/CSS**
- **Bootstrap**
- **JavaScript/jQuery**
- **Node.js**
- **GoogleMaps API**
- **Moment.js**

PROJECTS

FindMyDoctor :
github.com/sarahm16/FindMyDoctor
sarahm16.github.io/FindMyDoctor
- Find My Doctor is a web application built using various server side APIs to provide the user with doctor information based on location and specialty.
- I was tasked with creating multiple API calls and handling the responses.
- Utilized Technologies:HTML/CSS,JavaScript/jQuery,Materialize CSS Framework

WeatherDashboard :
github.com/BobbyOldani/06-Server-Side-APIs-Homework
bobbyoldani.github.io/06-Server-Side-APIs-Homework
- This web application allows the user to search any city in the US and will display the current weather and 5-day forecast.
- I built this project from the ground up starting with HTML/CSS and some modified Bootstrap. I then used JavaScript/jQuery to make the ajax calls to the API, save the previous searches in local storage, and display this all to the user.
- Utilized Technologies:HTML/CSS,JavaScript/jQuery,Bootstrap

DayPlanner :
github.com/BobbyOldani/05-Third-Party-APIs-Homework
bobbyoldani.github.io/05-Third-Party-APIs-Homework
- This web application gives the user a color coded 9 to 5 work day planner in which the user can save tasks to local storage with the click of a button.
- I was responsible for writing all of the JavaScript/jQuery and was also tasked with providing some HTML and CSS.
- Utilized Technologies:HTML/CSS,JavaScript/jQuery,Bootstrap,Moment.js

EXPERIENCE

Computer Technician   2019 – Current
MicroK12   Bellevue, WA
Responsible for diagnosing and repairing laptops and other devices for a local school district. Work replacing various hardware components of the devices, work closely with my team and the school district to devise strategies to help get these devices back into students and teachers hands as quickly as possible.
Key Accomplishments:
- Lenovo Certified Technician
- Dell Certified Technician

EDUCATION

Bootcamp Certificate: University of Washington, Seattle, WA
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.
